KMCG: Norbert Gabriel becomes senior partner / shareholder in well-established executive search company

Well-known reinforcement for KMCG GmbH: The internationally experienced manager and consultant, Norbert Gabriel, has joined one of the oldest German executive search companies as a partner. The Berlin-based company specializes in challenging executive positions and supports its clients in their international expansion. For around 40 years, KMCG has built up enormous expertise in the industry/automotive, FMCG/retail, construction and engineering sectors. With Norbert as an additional shareholder, KMCG gains an expert with many years of experience in various management positions in the international environment.

In 2017 Norbert Gabriel already started to contribute his expertise as a partner at KMCG. In his main industries: automotive, plant and mechanical engineering as well as railway, he has occupied leading positions in international projects. Equipped with this know-how, he has worked in the direct approach of candidates for management positions for numerous companies in the past four years, some of which operate worldwide. His focus has been on the automotive, passenger car and commercial vehicle, construction and agricultural industry, rail, robotics and automation sectors.

"In the past year, online interviews have grown into an important building block for getting an initial impression of a potential candidate. However, for a full and final assessment of whether the client's specific requirements are met, personal contact is essential," says Norbert Gabriel, adding, "From there, I hope that boarding the plane will soon become the norm again and that executive search can once again take place face to face."

Dr. Werner Haase, long-time managing director and shareholder, agrees. "Filling challenging management positions requires experience, competence and resilience. We are therefore delighted to have Norbert Gabriel on board as a partner with immediate effect. Together with him, we will continue to advance the global orientation of KMCG GmbH."

About KMCG GmbH

KMCG is an independent consulting firm that realizes the filling of challenging executive positions for German and international companies. Since 1982, the executive search company has specialized in the direct approach of candidates and accompanies clients in their transnational expansion.

In a network with professional partner companies, KMCG is a valuable contact for the areas of management audits, potential analyses, coaching as well as interim management.

In its 40-year company history, KMCG has filled management positions in numerous countries on the continents of Europe, North and South America as well as Asia.
